Alliant MOU List

A Current MOU is Required for ALL Placements/Employment

Memorandums of Understanding (MOU) is an important part of the university-school/district partnership. This agreement between the partners documents both the responsibilities and liabilities of each party, especially when it comes to Clinical Practice. Whether you are beginning your Classroom Observations as a Student Teacher or entering the program as an employed Intern teacher-of-record, all settings in which Clinical Practice takes place MUST be within a school/district that has a current MOU with Alliant International University.

To begin an MOU request process, you must complete the [CSOE Memorandum Of Understanding \(MOU\) Request Form](#). This form is only accessible while using your Alliant student email address.
