

Alliant International University
California School
of Education

In order to obtain your preliminary credential, you are required by the CTC to complete **15 hours** of observations in a variety of grade levels other than what you are currently teaching. You also need to observe students who are classified as English Language Learners. For example, if you teach high school, you will need to visit a middle school and if you teach lower elementary school you will need to visit an upper elementary/ middle/high school.

Some ideas on how you can complete this observation within the 8 week term are as follows:

- Observe 2 lessons a week for 8 weeks= 16 hours
- Observe 2 full school days
- Observe 3 lessons for 5 weeks
- Observe 4 half days

Instead of thinking about the number of hours think of it as lessons. Some kindergarten lessons are only 20 minutes and that is fine.

If you already hold a clear teaching credential, you do not need to complete this requirement and can just write the type of credential on the top of this assignment.

Please do not hesitate to reach out to me with any additional questions or concerns!
